Children Cry for
Pitcher's Castoria.

Now I Lay Me Down to Sleep

The fire upon the heart is low
And there is stillness everywhere,
Like troubled spirits, here and there
The faintest shadows fluttering o'er
And as the shadows round me creep
A child's trouble breaks the gloom,
And smits it on the further room
Comes: "Now I lay me down to sleep."
And, somehow, with that little prayer
And that sweet trouble in my care,
My thoughts go back to distant years
And I forget with a dreamy ease
A little while the child's name is
My mother's faith comes back to me;
I tremble at her side I seem to see
Sweet made of that trouble time -
And "Now I lay me down to sleep."
- Eugene Field.

A NEW DANCE.

The Lafayette is danced in polka time, and in it is introduced a step similar to the old hock-a-toe polka step. Then there is a complete turn made in which the partner, released from each other's touch, make a complete circle, and joining hands again, in perfect time resume the dance with redoubled vigor. The appearance of it is a little like the Berlin, which was so popular last year. The Aurora and Vienna need a skilled teacher to lead one successfully through their intricacies, as in each the step changed three or four times. In the Vienna the hock-a-toe or see-saw step is introduced, and in the Aurora the partners face, dance side by side and face again with a rapidity and ease very startling to the uninitiated. Both of these last named can be danced to waltz time, although the special music written for them is usually preferred. But the dance of all dances in the way of lively interest is the "McAllister Glide," which was danced for the first time at the big last year ball in New York recently.

It is reported to be the very swiftest dance movement of the period, and will doubtless flash through the country at break-neck speed.

ISOLATING THE GRIP.

Tight influenza does not, as generally believed, travel in the air is contained by Dr. J. R. Leeson, a London physician, who claims that he has conclusively proven that the disease passes from the patients to their friends and neighbors, and those who come into immediate contact with them, in the same way as do measles and scarlet fever. During an epidemic he carefully isolated an orphanage, and in the end 300 children - which was under his medical care. The children were kept from church, visiting was discontinued, the orphanage was taken to prevent contact with influenza victims. So successful were these efforts that, though the disease prevailed all around the institution, none of its inmates were affected.

tory's Broad Page.

February 14.

St. Valentine's Day: The earliest traces of the festival indicate that the Pope, Gregory, and Italy believed that the birds chose their mates for the year at this time. Hence the custom of the "chickadee" or "chickadee" which parades a mock pairing in which parades and makes selected partners by lot. The church made the day sacred to St. Valentine, who was beheaded in Rome about 269 A. D.

417-Pope Innocent III.

1491-Richard II, king of Eng-

land, murdered in Pontefract castle.

1824-Winfred Scott Hancock,

soldier, born in Montague,

Mass., died in 1863.

1850-Gregory formally ad-

mitted as a state.

1857-Donnell complete-

ly invested by General

Grant with 34 infantry regiments and 4

batteries, besides cavalry, snaphotographers

and engineers.

1872-Jamaica and Porto Rico annexed by

ocean cable.

VINALHAVEN'S LOCAL EVENTS

A Batch of Readable Notes from the Home of Granite.

Gossipy Bits of News Regarding Residents and Visitors—Occurrences Trivial and Important, but None the Less of Great Interest.

Town Meeting March 7.

In January there were five deaths in town.

Walls claims to have the fastest town.

Walker, piano tuner, was in town.

Northrop and family left here for Stony Creek.

Sanborn has a crew at work on harbor pond cutting ice for local use.

Joseph Rogers has sold his interest in two weirs at Lane's Island to Geo. Sanborn.

There will be a busy week for the Seamen. Six notices are posted calling for laying out of as many town roads.

A. Aron, at work in the big shed, lately found a nest of mice in his tool which he had been using right along.

Unclaimed letters at the postoffice are: Andrew Gordon, Edie Mills, C. A. Peterson, Charles Sandberg, W. O. K. S. I. Orchestra and Ingraham Band of Rockland will have a concert and dance at the Opera House, Feb. 23.

The Selectmen have been very busy the past few days. Aside from their duties of making up the yearly report they have been called upon to lay out new roads in districts 1, 3 and 4.

Engine S. Loud entertained a party of friends at his home Friday evening, the 6th. As the night was favorable quite a large number attended. All pronounced it a good time.

The referees in the Page vs. Andrews case evidently had a hard time arriving at a conclusion, as it was several days after the hearing before they agreed on a verdict. Their final decision was to award Page \$2.45 and neither party to recover costs of the other.

At a meeting of the property holders of Vinal Haven, Saturday, the 6th inst., John Lowe, F. S. Walls, John A. Hopkins, D. L. Carver and H. V. Lamson were elected Trustees and Calvin B. Lamson Treasurer. Considerable repairing has been made about the vestry. There is quite a sentiment in favor of making the pews free to all, and it is thought that in a short time all the holders will agree to the change.

We are sorry to chronicle the death of one of our oldest organizations, Granite Lodge, I. O. T. T. For many years as well as reform, the lodge of society and growth of other societies the Granite Lodge have been slowly going "down hill" until last Spring, when a committee was appointed to do as they saw fit. They had to mortgage the furniture to pay the rent, several attempts have been made to reorganize but without success and now the furniture, stoves, organ, chairs, settees, scenery, etc., must be sold to pay the mortgage.

GRANITE CHIPS.

Niles, Lampson & Co. are shipping this week to San Francisco, Cal., a heavy consignment of granite caps, columns, and bases.—The New England Magazine for February contains a 20 page article on the granite industries of New England, in which six lines are devoted to the business being done in those lines in Vermont, Barre not being even mentioned. Acting on the advice and request of several leading granite dealers in Barre, Charles A. Smith has written the editor of that magazine, giving some very suggestive figures showing that in Barre is quarried and worked annually the largest amount of granite in any town in New England. In his letter Mr. Smith calls the editor's attention to the fact that there is such a place on the map as Barre, gives him the amount invested in the business in town, the phenomenal increase of the population, and offers to pay a handsome sum for the privilege of replying to the article in the current number of the magazine. The editor's reply is awaited with interest.—Barre correspondence of Montreal Argus.

AN OPPORTUNITY.

Wanted—A practical superintendent to take entire charge of a granite quarry situated a short distance from Rockland—who is capable of taking charge of men and equipment with plans. Such a man can secure a good position and salary by addressing "Granite Superintendent," THE COURIER-GAZETTE office, Rockland, Me.

There is a good prospect that the Holmes three pulley manufactory will be located here. Several of our hardy capitalists are interested in it, and it is expected that enough will be stock in it to build the works here—Gardner Journal.

KNOCKED 'EM OUT.

How a Knox County Boy Taught Rufians a Lesson.

The San Francisco Chronicle of Feb. 3 has the following, which should be of interest to some of our readers, inasmuch as the conductor who figures as the hero is a former Mathisite, J. F. Condon. Mr. Condon visited his old home in December, 1890, after an absence of fifteen years:

"The conductor on the west-bound overland train had a severe tussle with two ruffians last night. They boarded the train at Porten and proceeded to wreck the furniture in the car. When an old gentleman expostulated with them they set upon him and attempted to throw him out of the window. Several ladies were made the targets for their vile pilules and as the ruffians were building high carnival the conductor appeared on the scene.

"He was immediately set upon by the men, but succeeded in knocking one down with his lantern. With a well-directed blow on the jaw he put the other ruffian to sleep, and he kept them in that helpless condition until Sacramento was reached. The men were then handed over to Detective Free and locked up in the city prison on the charge of disturbing the peace."

THOMASTON TOPICS.

A delegation of Thomastonians witnessed the presentation of "The Little Lyceum" in Camden Wednesday evening.

James Donuth has opened a boot, shoe and harness repair shop, in the front end of I. H. Bickett's paint and carriage establishment, Beechwood street.

W. E. Vinal opened his new and handsome store on Main street, Saturday morning. The store occupies the first floor of the new block, and is neatly finished in white wood, with center counters and racks. The show windows are of very large-sized plate glass and are so situated as to give a fine display of the goods which are tastefully arranged in the same. In the rear end of the store is a large and conveniently finished office, all being well lighted.

On the second floor there are a number of well finished rooms adapted to office use and other purposes. On the third floor is a large hall.

The block presents a fine appearance and is a great addition to our rapidly improving corner.

NOBLEBORO.

Large quantities of kiln wood are being cut.

Duncan Alden Chapman has gone to Boston for a season.

John Dyer and wife are very sick and have little hope of their recovery.

There is a large quantity of fine oak timber for sale in this town that the shipbuilders could make good use of.

Rev. Mr. Whittemore of Damariscotta conducted the funeral services of Master Fred A. Eagly at the meeting house on Sunday.

Quite a large congregation assembled to greet the new pastor, Rev. G. S. Hill Sunday morning of last week. He took for his text the words, "For I determined not to know anything among you save Jesus Christ and him crucified."

RESOLUTIONS OF RESPECT.

VINALHAVEN, Feb. 5, 92.

At a regular meeting of T. G. Libby Camp, Sons of Veterans, the following resolutions of respect to the late J. L. Haskell, were adopted:

Resolved—That we, the members of the T. G. Libby Camp deeply mourn his loss. But while we miss his presence from the earth, we would bow in submission to the will of Him who doeth all things well.

Resolved—That we tender to the bereaved relatives and friends, our heartfelt sympathy in their affliction, and our kind assurance that we are mourners with them, and what is their loss is His eternal gain.

Resolved—That a copy of these resolutions be presented to the relatives of the deceased, and that a copy be entered upon the records of our camp, also that a copy be printed in the COURIER-GAZETTE.

JOHN H. PERROW, Committee.

F. J. DYER, FRED SNOW.

ROCKPORT PERSONALS.

Miss Fannie Brastow is spending a few weeks in Massachusetts.

Mrs. H. J. Tibbotts left Tuesday for a few weeks visit in Boston.

Sewell Perkins and family are visiting relatives and friends at Castine.

Mrs. A. D. Champney returned from Milford, Mass., last Tuesday where she had been for two weeks caring for the sick.

ICE CUTTING.

The Rockport Ice Co. last year cut 42,000 tons and not 22,000 as was stated last week. Of this amount 21,000 tons were shipped from the water, and the remainder stored in the Company's houses. The Company will cut 30,000 tons this year and perhaps more.

CURRENT NEWS FROM ROCKPORT

Seasonable Happenings Served Up in Readable Form for Home Use.

Industrial News That Shows Business Activity—Local Notes Regarding Things of Interest—The Week's Record of Personals.

S. E. & H. L. Shepherd set several kills a-fire last week.

We are informed that one day last week the Drs. Wiedmen made 75 professional calls.

Our doctors are still kept busy, and the sick list holds about the same as reported last week.

Rockport sent a delegation of two to the big gathering of Red Men at Portland last week. Dr. H. B. Eaton and Wm. H. Smith.

The snows that have fallen lately have made fine sliding for the ice haulers and the pond and harbor are busy places.

Work of plastering in the new block commenced the first of last week. The workmen have one of the most comfortable places in town.

The large four-masted schooner Cassie Bronson, Capt. Bennett, arrived here Wednesday from Portland and will take 2000 tons of ice for Baltimore.

Grand missionary meeting at Rockland, Feb. 23, at 7 p. m. Chaplain C. C. McCabe, D. D., will speak on "Missions." B-sure and hear him.

Several accidents have already happened at the ice-houses. Last week Capt. P. C. Morrill had a foot quite severely jammed and Amos Cain was also quite badly injured.

The matter is settled and we are to have an electric railroad to Rockland. The terms of the lay-out through Rockport require one mile of the road to be built previous to July 1 next.

Mrs. Harriet Jordan died quite suddenly last week from the effect of a shock. She had just gone to her daughter's, Mrs. Abbie Carver's, when she was stricken down, living but a short time.

The report last week of the death of Jefferson Smith proves to be incorrect, as he is still alive, and although he has passed the 92nd mile-stone, we hope he may be spared to round out the full hundred at least.

About noon on Monday of last week two young men passed down Central St. trying to navigate a runaway horse and sled. Failing to keep in clear water a sudden collision between the team and the Fenner store was the result with quite a quantity of broken glass and bruised noses.

The meetings at the Methodist church are still in progress. The interest has been going during the past week. Some have found the Saviour and others are seeking salvation through Him. The congregations were very large Sunday and all were much interested in the able discourses of Mrs. Trewocky. She will be with the church one more Sunday—Waldoboro N. W.

FEBRUARY MARTINIS.

THE STORY-TELLER.

The February Story-Teller is occupied by Ella Farnham's bright and cheery story "The Cooking-Club of Tu-Whit Hollow." The story is humorous, entertaining, practical and pungent. All young readers will enjoy it and while enjoying it, will learn much from it, so unconsciously is information mingled with entertaining action and cheerful humor.

Price \$1.50 a year; 15 cents a number. D. Lathrop Company, Publishers, Boston.

POPULAR SCIENCE MONTHLY.

Dr. Andrew D. White will open the March Popular Science Monthly with a chapter on Astronomy in his Warfare of Science series. The strenuous exertions made by both the Catholic and the Protestant clergy to suppress the teachings of Copernicus and Galileo are set forth in this article with such strong evidence as to admit of no denial or shifting of responsibility.

Under the title Social Statistics of Cities, the March Popular Science Monthly will have a paper by Carroll D. Wright, comparing the area and population, and the cost of each department of public works, in fifty cities of the United States. The comparison contradicts some prevailing opinions as to what cities have the most expensive governments.

FOUND ON THE BEACH.

Possibly Relics of the Royal Tar Burned Years Ago.

Frank Osgood recently picked up on Claytor's Beach what appears to be a tooth of some extinct animal. It is about 3 inches long and 3/4 of an inch square. A similar specimen was found on the same beach some time ago, which was pronounced by experts to be a tooth of the hippopotamus. This circumstance brings to mind again the burning of the steamer Royal Tar, with a menagerie on board, some 65 years ago.

Prof. Lewis French Starnes, of the Baguer Theological Seminary, died last night after a severe illness.

Y. P. S. C. E.

One year ago this month a Y. P. S. C. E. was formed in the Baptist Church in Rockport. The society has been promising from the beginning and has thus far fulfilled the hopes of those who were interested in its establishment. It was the immediate outgrowth of the revival in the Baptist Church last winter, in which a large number of the best young people in Rockport were interested. There have been continual additions to the society since it was organized. At the present time there are forty-six active members and forty-three associate members. Of the forty-six active members, twenty are members of the Baptist Church and of the entire membership, all but ten are scholars in the Sunday School.

For the first six months, the pastor was President of the society. For the next term, one of the young men, W. T. Brastow, was elected to this office. The officers for the next six months which have just been elected are: President, Alton W. Prater, Vice President, Mrs. P. A. Shaw, Secretary, Miss Clara Piper, Treasurer, S. J. Nowell; Corresponding Secretary, Miss Lena Griffith.

During the year the society has bought new singing books and put them into the vestry for use in the prayer meetings, and has purchased two lots of coal for the church. By individual pledges they are now raising over \$20 for the cause of missions. Prayer meetings have been held every Tuesday evening. These meetings have been led by the young people themselves, and in this, as in other respects, they have shown ability and marked growth. The training in these meetings has proved a help in the other meetings of the church at which the young people have been constant in attendance. During the year there have been forty-five prayer meetings held by the Christian Endeavor Society with an average attendance of fifty-one.

FISH AND FISHING.

Herring are quite plenty in North Sydney harbor and some good catches are being made.

Halibut are plenty off Cape Cod, but hait is scarce, and the fishermen are seriously hindered.

The firm of D. C. & H. Balson of Gloucester has resumed operations, after a short suspension. Some of their fleet are being fitted for the fisheries.

Sch. Mildred V. Lee, Capt. W. Thomas Lee, arrived from the eighteen days' trip to the banks Tuesday with 45,000 pounds of halibut, which she sold to the New England Fish Co. for 10 and 12 cents per pound for white and gray.—Gloucester Breeze.

The receipts of frozen herring Wednesday morning at Gloucester were very large, there being seen arrivals from Newfoundland. The receipts of fresh halibut were also large, three arrivals having in the aggregate 120,000 pounds. The fare of halibut of schooner Gerie Evelyn was bought by the New England Fish Co. at 9 and 6 3/4 cts. per pound for white and gray. The fare of the schooner Willie Stevens was bought by the Atlantic Halibut Co.

The weir and trap fisheries off Cape Cod, the past year, were not financially so large as in previous seasons. The catch of mackerel was a failure, but that of the smaller species was larger in proportion than for the season of 1890 especially in the case of menhaden and sea herring. Of these latter there was a good demand by 8-bag vessels, and the prices were correspondingly large.

The catch of lobsters was fairly large. There were 1273 traps used in this business, which secured 42,115 lbs. of lobsters. Lobstermen lead, having 700 traps with a haul of 25,168 marketable lobsters. Over 3547 egg-bearing lobsters were returned to the water alive. A petition is to be forwarded to the present Legislature by the lobster fishermen asking for a modification of the law which forbids the catching of lobsters less than 10-1/2 inches in length, so that it will be lawful to catch lobsters not less than nine and one-half inches in length.

In the off-shore ponds and weirs the total catch for the season for 1891 was as follows: Alewives, 1,038,305; butter fish, 726,849; cod, 6302; bluefish, 54,310; horse mackerel, 2121; haddock, 133; mackerel, 2,158,001; menhaden and fish, 140,135; sea herring, 9,085,430; salmon, 11; trout fish, 9109; kingfish, 370; squeteague, 21,981; striped bass, 130; shad, 24,881; menhaden, 1,405,285; sea bass, 23,641; bonitos, 4035; squid, 290,282; scup, 1,679,240; eels, 2139; Spanish mackerel, 102.

It will be seen that the catch of mackerel was small, while that of fish used most entirely for bait, such as squid, was very large.

OBITUARY.

Suddenly, Mrs. Elizabeth B. Elwell, Augusta, Feb. 6, 1892, wife of the late James H. Elwell, formerly of Rockland, age 65 years, 9 months 16 days. Funeral at the residence of her son, E. H. Elwell, corner Winthrop and Wyman streets, Tuesday, Feb. 9, at 9 a. m. The remains were brought to Rockland for interment. Mrs. Elwell is remembered here by many friends who knew and esteemed her.

The crew at work trying to recover the drill at the Small Point coal mine are now within eighty-five feet of it, and by the middle of next week expect to reach it.

The Pullman train Monday night took seven of the blue blanded cattle from Sunnyside Stock Farm at Waterville, including four by the famous stallion Nelson, one by George Wilkes, one by Altro Ter, and one by Kentucky Prince. They will be sent to the great auction sale of Woodard & Skidwin at Leesters, Kentucky.

One rounded teaspoonful of Cleveland's Superior Baking Powder does better work than a heaping teaspoonful of any other. Cleveland's is wholesome, leavens best and leavens most.

WHY BUY THE OTHER? WHEN YOU CAN BUY THIS MINE MEAT

Superior Brand Mince Meat
